# Municipal Management of Cellphone Towers, DAS and Small Cell Deployments

Strafford Webinar

Best Best & Krieger LLP Partner Gerard Lederer will present a 90-minute CLE webinar with interactive Q&A, "Municipal Management of Cellphone Towers, DAS and Small Cell Deployments." In recent years there has been massive growth in cellphone masts or antennas, 4G networks and other technologies, and distributed antenna systems. Cell towers and sites are constantly being sought or changed to support the equipment needed to meet increased demand. Municipalities are increasingly involved in two separate and distinct transactions involving cell tower and other wireless device siting: 1.) obtaining regulatory approval and 2.) negotiating ground or rooftop leases for towers and other wireless devices on government property. This webinar will identify and confront complex issues relating to cell tower applications and leases, zoning regulations and revenue considerations, as well as focus on negotiating and structuring site leases.

## When

Thursday, Oct. 19

10 - 11:30 a.m. PDT / 1 - 2:30 p.m. EDT
