"Legal and Practical Issues Regarding the Uses of PEG Funding"

Issues associated with how PEG funding can be used - if it is provided as the result of local franchise negotiations or state franchising rules - are frequently the topic of discussion and debate. California's state franchising rules include no black and white answers to the question of whether the use of PEG funds is limited to only capital and equipment purchases or can PEG funds be used for other PEG-related purposes. These same issues sometimes arise in states and communities where the ability to negotiate local franchises exists. Is there one definition of capital and equipment that is broadly acknowledged as "accurate?" This workshop will address the legal and practical issues regarding uses of PEG funding.
