Mitigating Transportation Technology Risks: Privacy, Data and Cybersecurity

BB&K Free Webinar Series

New transportation technologies bring opportunities for improving mobility. However, these technologies, like automated vehicles and dockless scooters, also bring new risks. These issues must be balanced with policies and terms of use agreements that the public understands and follows. Best Best & Krieger LLP attorney Gregory Rodriguez is joined by Mark Hallenbeck, Director of the Washington State Transportation Center, Jan Whittington, Professor of the Department of Urban Design and Planning and Regina Clewlow, CEO and Co-Founder of Populus to discuss such challenges and opportunities in the wake of the recent *Carpenter v. U.S.* decision by the U.S. Supreme Court, and offer observations on the importance of proactive big data management by public agencies.

When

Thursday, Nov. 8
10-10:30 a.m. (PST)
